

THINKING SKILLS

notice

think up new
solutions

choose methods

decide

break into parts

test

AND YOU NEED:

curiosity

to take risks

to make an effort

concentration

persistence

cooperation

good listening

to want to improve

to enjoy learning!

WORKING AND LEARNING SKILLS:

I concentrate on listening to others well.

I dare to say what I think.

I respect other people's opinions.

I make constructive comments.

I take my turn to speak.

I learn from others.

REFLECTION:

What thinking skills did we use?

How did we use them?

Did we use them well? Why? / Why not?

Did we have a plan / strategy? What kind?

How did you show your learning skills?

What could you / we do better next time?

How could we improve?
