FISCHE, DIE AUF FELDERN WACHSEN

Fischbestandteile schmecken. Dieser Fisch wächst auf dem Feld. Ein Stück, denn wir setzen auf pflanzliche Zutaten, die wir ernten und nicht kochen. Fisch vom Feld ist kein Gemüse, sondern eher so etwas wie Fisch, aber ohne diesen Glanz. Durch etwas Hartweizen und ein fröhliches Linsen- und Feld vom Feld zur Protein- und Omega-3-Quelle. Salzig, knusprig und mit gutem Gewissen. Sollst du und schmeck's selbst.

Product Description

Hello Joya Miam Émincé Végétal au Chanvre (Plant-Based Hemp Mince) is now available. The organic, 100% natural and vegan product is described as a 100% plant-based hemp-style seitan, ideal to replace meat and an excellent choice for a natural, complete, modern, healthy and balanced diet. In this recipe, organic French hemp complements wheat and provides an additional supply of omega-3, minerals such as zinc, iron, magnesium and phosphorus, and vitamins. Hemp protein contains all amino acids, which is why hemp seed is considered a super food. This product is rich in proteins with 17.5g proteins per 100g of cooked product, a source of fibres, and is said to help reduce fatigue, promote the normal functioning of the immune system, and help maintain and increase overall muscle mass. The hemp used in this product has been cultivated in an ecological and local way, without chemicals or irrigation, and is said to increase biodiversity and in particular bee populations. The product retails in a 200g pack bearing the 1% for the Planet, EU Organic, Facebook and Instagram logos.

Product Description

Sooperfoods Yogurt Grecheskiy na Kokosovom Moloke Chernaya Smorodina (Coconut Milk Greek Yogurt with Blackcurrant) is a fermented vegan product that is ready to eat, contains 6% protein and no sugar and lactose. It is formulated with the Sooperfoods protein formula, which is described as an innovative combination of plant proteins, containing all the amino acids necessary for the body. According to the manufacturer the amino acids are easily digested due to the fermentation in a coagulated state, which makes them more effective than ordinary cottage cheese. The product contains polydextrose and glucomannan polysaccharides that are prebiotics normalising digestion by supporting the microflora. It is sweetened with stevia without its characteristic taste, and retails in a 160g pack.
