

## Discography of Yves Montand's Soviet made recordings

Sources used for collecting the data

- Discogs ([www.discogs.com](http://www.discogs.com));
- Katalog sovetskih plastinok (<https://records.su/> )
- Meshok (<https://meshok.net/>)
- Russian Records ( <https://www.russian-records.com/index.php> ) - did not contain any, focuses on early 20<sup>th</sup> century recordings

The dates indicated in the list are based on the information on the websites, which are composed by platform users' uploaded images and information on the recordings. In those cases, where we have some extra doubts concerning the publication year we have inserted a question mark. The names of the songs are in Russian, and we added the French titles for those that we could identify, and the ones that we were unable to identify we provide the Russian name with an asterisk (\*). It is very likely that not all the Montand recordings published in the Soviet Union are in this list.
